Mary, I have been trying to reach you on and off today. I did get your voicemail message. Since we haven't been able to hook up, would you be available at 10:30 or 11 am your time tomorrow?

Hi Mary,

To answer some of your questions, please see the attached sampling spreadsheet for East Chicago/USS Lead.

Both sets of data that we have for Zone 3 are included.

All sites from Zone 2 and Zone 3 that have been sampled are at the top, in order of when the S1 samples (pre-excavation) were collected. Towards the bottom are homes that are scheduled, are pending (out of town, attorney issues, etc) or refused sampling (3) / cannot be sampled (apt bldgs.).

Thanks,
Andrea Porter

Miguel,

I would like to know if the samples you mentioned below were collected from homes that were occupied, I know some of the homes in that area did not have people living in them and in addition if the samples were taken from Tier 1 homes.

Also, is it possible for IDEM to get copies of these sample results?

Thanks

Sure. If they have OWQPs set, the EP/DS limits would be helpful to know as well.

Those would go to their field inspector. Can I ask East Chicago for them?

Hi Stacy,

We are starting to get the water sampling results back from East Chicago and the first home had 0.05 mg/L as Total P and the second had ND as Total P. Do you have recent MORs you can send with East Chicago's ortho levels at the EPs and DS?
